In 1987 California adopted the Mitigation Fee Act which allowed local governments to collect impact fees related to construction and provided the requirements for establishing, collecting, and reporting of impact fees. The Mitigation Fee Act is part of the California Government Code Sections 66000 through 66008.

On December 19, 1989, the Board of Supervisors adopted Resolution No. 89-1724, which established a public facilities fee program for development in Stanislaus County. Public Facilities Fees (PFF) are collected on building permits for new developments in the County and are expended only for purposes specifically identified in the County's PFF program and are authorized by the Board of Supervisors prior to distribution. PFF are collected to ensure that new development pays the capital costs associated with growth. Government Code Section 66006 requires an annual report of the PFF funds.

Per Government Code Section 66001(d), funds which have accumulated for a period of five years or longer must be identified for a specific purpose.

#### **Program History**

Below is a chart detailing the changes to the PFF program since the program was adopted by the Board. There were no changes made to the PFF program in the Fiscal Year Ended June 30, 2022.

#### Fiscal Year 2021-2022 Program Activity

For Fiscal Year 2021-2022 the PFF program deferred the collection of fees on 72 construction projects until the time of occupancy. This amounted to \$1,110,739 in deferred fees. In addition, the PFF Committee received and approved three requests for fee waivers or deferrals for housing projects: one request comprised of seven housing units at very-low income, one request comprised of 35 housing units at low income and five housing units at very-low income, and one request comprised of 23 housing units for veterans at low and very-low income and 12 senior housing units.

#### Fiscal Year 2021-2022 Financial Activity Summary

The PFF program is an important component of funding growth-related capital improvements within Stanislaus County. Fees collected in Fiscal Year 2021-2022 for PFF and Planned Development Areas were \$10 million, a 15% increase compared with prior fiscal year. Fees are collected based on the schedule in effect at the time the development agreement was drafted.

Fiscal Year 2021-2022 disbursements were \$12.5 million, a 63% increase compared to prior fiscal year due to work proceeding on a number of road projects including phase 1 of the North County Corridor project. Of the \$12.5 million, 97%, or \$12.1 million, was spent on various road and bridge projects. Detail of the disbursements, including the various projects and amounts funded by PFF, is outlined in the PFF Distributions Report section.

An administrative charge is calculated as part of the fee and is available to offset the costs of administering the program. Prior to 2010, the administrative charge was 2.5% of PFF collected. From 2010 through June 30, 2018 the administrative charge was set at 1%. Effective June 30, 2018, the administrative charge is set at 2%. The administrative fees collected for Fiscal Year 2021-2022 were \$196,040, a 16% increase compared to prior fiscal year. Funds withdrawn for administering the PFF program during Fiscal Year 2021-2022 were \$81,529, a 54% decrease due to the RTIF fee update completed in Fiscal Year 2020-2021. The administrative fee distributions are displayed in the PFF Distributions Report section.

The accumulated five-year excess amount as of June 30, 2022 is \$15,446,101, a less than 1% increase compared to June 30, 2021. The accumulated five-year excess is the amount of fees collected as of June 30, 2017 and undistributed as of June 30, 2022. The County uses a first in first out method to calculate the accumulated five-year excess which means that the County assumes that funds that are received first are distributed first. Per Government code section 66001(d) the County is required to identify the purpose to which the accumulated five-year excess amount is to be used. A plan for the use of the accumulated five-year excess as well as total estimated project costs and estimated project start dates can be found on the Public Facilities Fees Plan for Accumulated Funds section of this report.

#### **Additional Notes and References**

Planned Development Fees are collected as part of planned development agreements in specified areas within the County. While Planned Development Fees are not part of the County's PFF program, Planned Development Fees are still subject to reporting under the Mitigation Fee act and are included in the PFF annual report to consolidate reporting requirements.

California Government Code Section 66002 states that local agencies that have developed a fee program may adopt a Capital Improvement Plan (CIP) indicating the approximate location, size, and timing of projects, plus an estimate for the cost of all facilities or improvements to be financed by fees. The County produces a CIP every two years to establish an updated list of the County's long-range capital improvement projects.

The County's most recent CIP can be found on the County's website at <a href="https://www.stancounty.com/capitalprojects.">www.stancounty.com/capitalprojects.</a>
