STANISLAUS COUNTY UST PERMIT REPAIR REQUIREMENT GUIDELINES

	PERMIT REQUIRED*	PERMIT NOT REQUIRED*
1	UST - installation/removal/modification.	Sensor replacement (like for like).
	Piping below grade - installation/removal	
2	/modification.	Dispensor pump repair/replacement.
	Repair/replacement of any primary/secondary containment component not otherwise specified in this listing, including tank pipe, flex pipe, penetration fittings & sumps.	Swapping part for part in a UST monitor (like for like).
	Overfill alarm - repair/replacement/installation.	Monitoring system cold start.
	Installation of NEW conduit into any UST	
	system sump where a wall is penetrated.	CPU board replacement.
	Penetration fitting into a sump wall -	Installation of monitoring system software that
	Installation/replacement/modification.	does not affect the monitoring plan.
	Sump - repair/replacement/modification.	Submersible turbine repair replacement.
	Spill bucket - replacement.	Turbine replacement/modification/repair.
	Sensor installation and/or replacement (NOT like for like)	ABOVEGROUND TANK/DAY TANK
9		No permits required unless the system has
10	Complete UST monitor replacment	underground piping.
10		
		HYDROSTATIC FLUID SYSTEMS
		Adding fluid to the system.
		purge air from "hydro" filled system.
		Replace brine cannister/reservoir.
		PIPING/VALVES
		PIPING/VALVES Shear valve repair/replacement.
		Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/
		Shear valve repair/replacement.
		Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/ clean/repair/replace.
		Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/ clean/repair/replace. REPAIRS/MAINTAINANCE
	TE - UPDATED UST TANK FORMS AND/OR	Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/ clean/repair/replace. REPAIRS/MAINTAINANCE Bracket/sleeve that holds sensors in the lowest
M	ONITORING AND RESPONSE PLANS ARE	Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/ clean/repair/replace. REPAIRS/MAINTAINANCE Bracket/sleeve that holds sensors in the lowest point in a sump - repair/replace/modify.
M REG	ONITORING AND RESPONSE PLANS ARE QUIRED FOR ANY MODIFICATIONS AND/OR	Shear valve repair/replacement. Aboveground threaded steel pipe: disassemble/ clean/repair/replace. REPAIRS/MAINTAINANCE Bracket/sleeve that holds sensors in the lowest point in a sump - repair/replace/modify. Clamp inside sump - repair/replace/modify/tighten.

		rop (fill) tube/riser flapper valve.
		oot valve assembly located in the "O" ring.
		lanway gasket.
		eplacement of rock guard.
		etaining ring.
		ensor replacement (like for like).
		pleniod valve.
		ent cap.
		ent cap.
		PILL BUCKETS
		pill bucket - repair.
		pill bucket drain valve remove/clean/reinstall.
		pill bucket drain valve replacement.
		pill bucket foam filter replacement.
		pill bucket lid replacement/ gasket replacement.
		pill bucket 'O' ring replacement in sump.
		pill bucket or sump clean out.
		NNUAL TESTING
		QMD related testing.
		ine leak detector certification.
	M	lonitoring certification.
		verfill device.
	Se	econdary systems.
	S	pill bucket.
	S	ubmersible turbine repair/testing ONLY if piping
		not broken.
		ank and/or product line testing.
		athodic protection related testing
		LECTRICAL
		onduit installation/repair unless it penetrates the
		ump wall.
		onduit plugs/covers/conduit cap replacement.
		onduit repair/replacement/relocation outside the
		ump (I.e.inside the building or underground with
\vdash		o sump penetration).
		stallation/servicing of wiring and/or electrical
		Inction boxes.
	In	
\vdash		EEDER ROOT (UST Monitor)
		estallation of monitoring system software
		ncluding software upgrades and VR 350
		pgrades to 350+).
		ulb replacement.
		oor/cover repair/replacement.
		rinter reair/replacement including take up reel.
		eypad replacament.
		THER
		reaking ground for leak investigation.
		ddition of silicon (i.e.blueline 4036) to penetration.

Manway cover replacement.
Installation of an EVR system that DOES NOT
connect to piping below grade or penetrate a
sump.
