

Waiting Room or Your Room? You Have a Choice.

Avoid germ-filled waiting rooms and visit with a doctor online using Amwell.

Telehealth visits using Amwell are covered under your Stanislaus County health plan.

Amwell makes it easy to see a board-certified doctor, licensed therapist, psychiatrist, nutritionist, or quit smoking online. It's a convenient way to get the care you need, when you need it most.

Using Amwell, you can:

- **Visit with a doctor 24/7:** The doctors you see using Amwell can assess your condition, provide a treatment plan, and send prescriptions to the pharmacy you select, if needed.*
- **Talk to a therapist or psychiatrist:** Schedule a counseling session to get extra support when you're experiencing anxiety, depression, grief, stress, and more. The psychiatrists you can see through Amwell can provide medication management for many common health conditions.
- **See a nutritionist:** The nutritionist you see can counsel you through weight loss or support you in reaching health goals.
- **Quit smoking:** With Amwell smoking cessation you can get extra support to kick the habit.
